

THE KROGER CO.

1014 VINE STREET

CINCINNATI, OH 45202-1100

January 18, 2017

To Our Valued Suppliers,

At Kroger, we are strongly committed to ensuring the safety of products we sell across our enterprise as well as being responsible corporate citizens. As part of our commitment to corporate responsibility, we continuously look for ways to ensure we operate in a responsible manner and provide a safe environment our employees, our customers, and the communities we serve.

Kroger utilizes the WERCSmart Solution (WERCS), offered by UL Information & Insights to aggregate specific regulatory information for all chemical-containing items, over-the-counter health products, pesticides, aerosols, batteries, and other potentially hazardous-material products that you sell to us.

Your role as a supplier to Kroger is to register your product and formulations with WERCS, which includes making a current safety data sheet (SDS) available via WERCS. WERCS will then perform an assessment of each product to support Kroger's regulatory compliance goals.

All proprietary information provided to The WERCS is kept confidential. **WERCS is committed to the highest levels of security and will not share any proprietary information with Kroger or any other party.**

UL assesses a one-time annual subscription fee for WERCSmart registration, which is determined by the number of currently registered formulated and non-formulated products. All existing and new product registrations are fully paid under the annual fee. This includes all existing, new, and future participating retailers who implement WERCSmart in the future.

Pricing & Information Package can be downloaded from

https://secure.supplierwercs.com/docs/wercsmart_subscription_12_2015b.pdf

Action Required by March 15, 2017:

For any qualifying product that Kroger has agreed to purchase:

- Navigate to the [WERCSmart](#) website
- Click *Sign In* (upper right corner)
- Select *Create Company Account* (if necessary) or enter account information to login
- Select *Register* (to indicate type of product) or you may select *Manage Products* to forward an existing registration/assessment to Kroger

Please complete the registration process for additional products Kroger may purchase and for any existing item whose formulation, ingredients, or UPC has changed. Suppliers will not be able to complete new item setup with Kroger until the product has been assessed by UL.

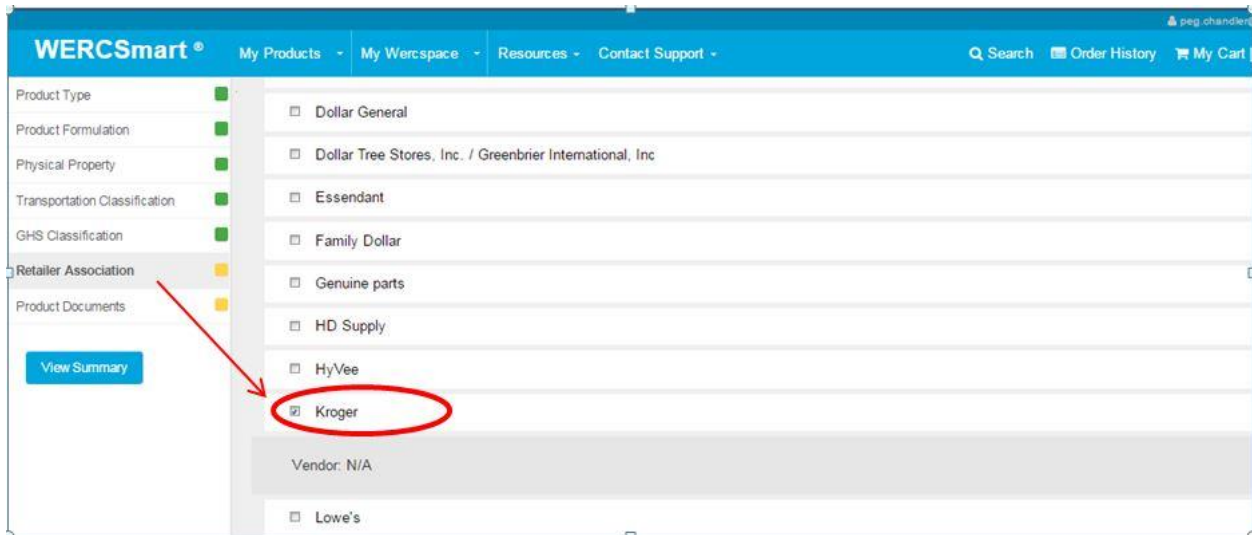

Next Steps

All products subject to WERCS registration must be registered and directed to Kroger by **March 15, 2017**. Failure to meet the deadline could result in fines, removal of noncompliant products from Kroger Planograms, or other measures as deemed appropriate by Kroger management.

Products requiring WERCS registration are listed on the following page. This list is not all-inclusive. If you have questions about whether your product requires registration, please email us at wercsinfo@kroger.com

Already registered in WERCSmart?

If your products are already registered in WERCSmart, please log into your [WERCSmart](#) account and navigate to the *Retailer Association* tab on the left side of your screen (see below) for each registered product. Once on the *Retailer Association* page, please confirm that the box next to Kroger is checked. We have found that many suppliers have registered their products to other retailers but have not directed UL to feed data to Kroger. Under its supplier NDAs, UL does not automatically forward data to us unless you instruct them to do so.

WERCSmart Registration Tips

- Ensure your UPC is accurately entered when registering your product; GTIN-12 (UPC-A, UPC-E) or GTIN-13 (EAN-13)
- WERCSmart assistance options (<http://wercsmart.kayako.com>):
 - Help Desk Hub with 24/7 resources available in their knowledgebase
 - Submit a Ticket
 - Use Chat feature (when available)
 - Video Tutorials

For questions regarding Kroger's program please email wercsinfo@kroger.com

We sincerely appreciate your cooperation and partnership. It will help us both manage the regulatory compliance responsibilities that we have and alleviate the shared and costly exposures of noncompliance. It will also help minimize waste and aid in our efforts toward environmental sustainability, which will benefit the communities in which we live and serve.

Sincerely,

Christina Groth
Vice President, General Merchandise, Health & Beauty Care and Non-Foods

Mel Bompreszi
Vice President, Grocery
